KIS GLOBAL™
IDENTITY & PERSONALISATION SOLUTIONS

Swiftpro® K30 Single Sided
Retransfer Card Printer

KIS Global provides market-leading solutions with an extensive range of retransfer desktop solutions to meet the needs of the customer and by adding value to global businesses. Our mission to revolutionise business identity and access management by building trusted partnerships through our simple SMART™ partner distribution networks.

The Swiftpro K30 retransfer card printer has an outstanding print quality for single-sided printing. With 300dpi printing density, it is the ideal solution for businesses requiring high-quality identification cards, passes, and badges with personalized physical and logical access management.

The ultra-fast, powerful Swiftpro K30 printer is available with contact and contactless smart code encoding technologies and 100 cards input and output hopper with optional 250 hopper upgrade. This reliable and durable printer is the ideal solution for both entry level to advanced secure card programs for a range of vertical markets.

Selecting the right printer is important, more important is ensuring the supply of Genuine Swiftpro Supplies and Retransfer film is also critical in delivering reliability, print quality and vibrant colours for your card programs. Swiftpro supplies deliver consistency and ensure the longevity of your printer and print head and minimize downtime and create efficiencies in your card programs. Always ask for Genuine Swiftpro Supplies from your Authorised Premiere Value Added Distributor, Premiere Enterprise Solution Provider or Premiere Value-Added Reseller.

SECURITY
The ribbon erase function prevents leakage of personal information on the monochrome panel ink ribbon. It scrambles information beyond recognition to protect this data.

VERSATILITY
Swiftpro's modular design permits customers to upgrade as their card programs need changes.

IMAGE QUALITY
High Resolution printing using 300 dpi printing provides superior print quality for all your card programs.

RELIABILITY
Swiftpro K-Series are well respected globally for their Japanese engineering for quality and reliability.
INNOVATION
Innovating since the 90's with state of the art retransfer printers, providing safe, secure, and reliable ID card printer solutions to global organizations since 1989.

DURABILITY
Highly durable printers with industry leading warranties on all our products and lifetime on the print head.
